### Photograph Information:

The Quality of the photograph is important. For best results:

- Subject is looking straight ahead
- Photocopies do not turn out as well as the actual photo
- Entire picture is of the face and the child, with nothing cut off. (i.e. part of the head or hair)
- Clear; not dark, fuzzy, blurry, or grainy
- School Portraits work well
- Photograph is in color. (Black and white may be done but will remain black and white.)

**Guarantee:** Colors may vary from actual photograph. Any shadows or hot spots cannot be taken out. Hair that is in the front of the shoulders will be made to look like the hair is behind the back, and curly or wisps of hair cannot be duplicated exactly. The angle of the head on the picture will look the same on the doll. Photographs will be returned. Story Time Felts is not responsible for damaged photographs or photographs that are not returned. Story Time Felts guarantees this product and will replace it if there are defects in the material or the name is incorrect as specified above. Quality control is at the discretion of Story Time Felts. Personalized dolls will be mailed within three weeks from receiving the photograph unless it is specified as a **RUSH** order.
